

# Empowering Leaders Through Education

Elite provides quality afterschool enrichment that aspires to incentivize youth through competency-based and personalized learning models to become headstrong, bilingual, empathetic and invaluable members of society.

## Our Mission

We are determined to create leaders in our communities. We have been so passionate about this project, that we have devoted the past six years (functioning under the name Escuela Mi País) with nothing but our time and determination to see it through.

## What We Offer

Elite is a school containing Elementary, Middle and High School children. We offer an extended curriculum to include learning programs that prioritize the following:

- Cultural Education (to include world languages)
- Performing Arts (Music, Theatre and Arts and Crafts)

▸ Home Economics and Financial Education (how to manage a bank account and a household budget), Basic Culinary Skills and Parenting Skills

▸ Graduation and Scholarship Education (to include SAT/ACT Prep Courses)

▸ Workforce Education

▸ Technological Innovation

Students who form part of Elite will produce, at the end of every year, multidisciplinary portfolios that demonstrate mastery of school competencies and we intend they graduate with fluency in at least two languages.

## Class Schedule

Our Pilot Program for 2020 will run from March to May and will be conducted Saturdays from 9am to 2pm.

*"I have attended many of the [Elite] activities and am always greatly impressed by how much the staff has been able to accomplish with the children with such a limited budget. They are motivated by love for our children, and work hard to help make them aware of their true potential."*
